a good stock of Pianos to go on with so that he has paid Chatfields abt^t 8000 £ for their interest in

Transcription of a letter from Robert Mott to Julius
Blythe House, Hammersmith, May 23 1829

Dear Julius

I have been stopping with Isaac Mott some time. I came from Dovers Green up to London to see about Samual who has been writing to Sister Mary Mott for money as usual and making great complaints about Isaac not employ(ing) him or his boys and I find that Samual was so dissatisfi(ed) and made the men so that Isaac could not have him in the work-shops any longer and therefore got rid of him and gave him a little work at home but trade being very slack he could not give him more than half-employ(ment) and his two sons he was obliged to get rid of them altogether they being dissatisfyd and complaining very much and would not mind any thing that was said to them by Isaac. He (this is another &) complained of there (their) conduct most bitterly and would not be plagued with them and longer and so discharged them.--But tho they are bad they must be kept by the parish or some one. I have agreed to allow him 100£ per annum and they are not to run about begging and teasing (?) my friends. If (if) he does I shall stop his pay.--Isaack is getting on and has agreed to pay 1000£ per annum until Chatfield's debt is paid. He has paid about 5000£ and he thinks he shall accomplish it--his children are all out and he has notice to quit the Pall Mall House. He has bought (?) this place and thinks to erect a factory here after I receive(d) your letter about your two boys. (This is a bit obscure). I call(ed) in at Lond Street and heard they were alive and doing well.

I have done what I could at Brighton and left Brother George some thing better--they are getting on at Dovers Green slowly. I heard also that Mr. Robinson is going to America by his son in Holborn. --And that there are plenty of applications for his farm, although he does pay a great poor Tax for it--. I left my servant Ann with Mrs. George Mott at Brighton--I also hear that Mentor Mott [his son] is well and I suppose he has forgotten Ann by this time and me to[o], I guess--Miss Blond I hear has lost her intended.--I did think at one time I should like to take Mr. Robinson's farm if I had a good housekeeper who understood the business but I begin to think I am most tc[o] old to go farming again now-- though I can scarce make myself believe I am Old--Alexander Mott at Birmingham who has a family of eight children and Samuel are the only two in the family now who are poor and cannot live [without assistance]. Isaac is begging for him. Isaac's children are all out.

Brighton property is not worse than I expected to find it and will now pay as well as your Loughboro property I expect. I went dow with Robert Mercer one night to Northwood. He says Mr. Chatfield lent Christy eight or ten thousand pounds and they have a lease of 15,000 acres in Wales at ? an acre, as security for the same. (That could be ten shillings an acre)

I wrote the above yesterday. I am now, May 25, in Pall Mall and have just received your letter of the 20th in which has been to

Brighton and returned to me hear (here). Robert Mercer wants me to go into Wales. They are going to sell all the Ditchling Lands and Brighton House and he also wants me to go with him to Ditchling and a Gentleman here wants me to go into Suffolk near Ipswich to look at Lands there and I do not know which I shall see after yet but I think I shall go and call on Mr. Samuel Thomson [Thompson ?] first to know what he wants as he has call(ed) to see me at Pall Mall once or twice in my absence. I saw Mr. Thomson Senior who says you are to(o) easy, and let your goods go out on credit to(o) much and you want looking after. What occasion he has to make such a speech I know not as I did not stop ten minutes and he and Mrs. T were going home to dinner.

I left Taunton at the time appointed and have been poking about at Brighton ever since until I came here about two weeks ago.--Th There is no truth in the report about Isaac's Gambling. He has cut down the expenses at Pall Mall to a very trifle [May 26] and yesterday went and paid off Mercer and Chatfields and took a release and has now got the whole thing to himself. He gave them 3000£ money down on the nail and had got a good stock of pianos to go on with so that he has paid Chatfields about 8000£ for their interest in the concern and I believe they are well satisfied with his conduct towards them. He is very equitable(?) and will do well I think because he keeps down the expenses. But every one of you think you were very ill used by the partnership concern. Isaac thinks he has been terribly used and would not go through it again for worlds. At present I am undetermined what I shall do. As soon as I go from Taunton to Brighton my legs began to put on (?) again as the(y) used to do, which was not the case in Devon or Somerset. I think the sharp Cyder there carried it off by urin(e).

My sister Mary is chained up to Mrs Christmas who cannot do one day without her or will she until her death which I see but little signes of at present. My Brother George will be killed by his Wife's kindness to him in giving him to(o) much to eat and drink for the [lack of] exercise he takes as he only rides about in a Chaise and cannot or will not walk but Mrs. M. says his constitution is very different to mine and that he would not live a month if he was to do as I do. I came up from Taunton without taking of(f) my boots, 200 miles as I came by London. I am very well in health but do not like my legs piting (?). I think Land and houses are dearer at Loughboro than any where. Isaac has bought this place very cheap. There is some doubt about the title is the cause. It comes by a French Count to a Man who lives in America Canada (?) and who wants to get back to his wife and family and is tired of waiting. A Gentleman's Place with Coach House and Stable, gardens, cottage and an acre of Land, all wall(ed) in. It is among Brickfields and not a great way from where he used to live before. I am quite undetermined where I shall go at present but any letter directed to me at Pall Mall will be sent to me when I do determine on what route to take Tell Mentor I will flog him if he does not leave of(f) throwing the gravel on the grass. I am Robert Mott, Pall Mall May 26 1829

NB I will when I am fixed anywhere write again.
