Dear Uncle

I promised to write you in Dec(ember) last--but have delayed,
expecting to give you more satisfactory information, however in
haste I give you the following account of your Bank Shares,
which I obtained through the influence of my old master William
Palmer & who is going to London in the course of two months, &
will give you much particular information, as I have made him
acquainted with the affairs, and advised with him how to act--
The cashier of the B of NY (Bank of New York) gave me the
following act in writing--

"Talbot & Allum & Lee purchased two shares of New York Bank
Stock on 11th (?) December 1794; transferred the same shares
on 8th March 1798 to Brown, Talbot & Co--who transferred them
27 December 1798, one to Barbe de Marbois, and one to Limor-
intis Noë--!!!"

These strangers as yet I have not found, however it is presuma-
ble that Brown, Talbot & Co paid their own debts with them--I
intend to search farther--Martin, after the power you sent me
was shown to him, told me he had settled the business of the
Bond!--He was empowered to act by Maddox who belonged to the
power of attorney of, Murray, Ling, Maddox, although you said
you knew nothing of Maddox whom Maddox mentioned. I suppose
you will now recollect, as I mention the other names of Murray
and Ling. To return, Martin, I find as (has) compromised the
whole business with the Surities and has given them a full
discharge, for the consideration of their notes, which he very
wisely had drawn as payable to himself & no other!! one note
each at 18 months, 21 months, 24 months & 27 months for 1000
dollars each--or 4000\$ in the whole. I have been to the drawer
(who told me they would pay no more, and wanted to stop payment,
if we proceeded any further. As the business was already settled

I can do no more that I know of, than to get those notes made payable to me and take care of them till they become due & though the amount is only 4000 instead of 7000 (and add. (additional)) as it ought to be, it is safe I believe. he (Martin) expects a handsome present for his services and demands as his right 7 per cent (?), but I shall do nothing but endeavor to get them Notes into my possession. If possible he delays giving me the notes, I have new ones drawn on the pretense of having Maddox's approbation--with best love to all friends in England, I remain Your affectionate nephew
